MESSAGE FROM THE NATIONAL PRESIDENT

*Congratulations on joining
the IRS and for choosing a
career in public service.*

Federal employees are unsung heroes who make enormous contributions to our country every day. They serve their country quietly, without fanfare, and keep America strong.

The IRS processes upwards of 260 million returns each year. It prevents identity thieves from siphoning tens of billions of dollars away from honest taxpayers. And it collects 93 percent of all federal revenue. Without the IRS, millions of taxpayers wouldn't get the refunds they are owed and our government wouldn't be able to function.

As the president of NTEU—the nation's largest independent union for federal employees—I know the value of your work and understand the importance of your contributions. Thank you for choosing a rewarding career and your willingness to serve your country.

You have a friend and a partner in NTEU. We have your back. NTEU was formed in 1938 for one purpose—to make sure IRS employees are treated with the dignity and respect you deserve. That remains our mission today and will continue to be our mission in the future.

NTEU is on the front lines of the effort to boost agency budgets, attain fair pay, improve your benefits and ensure that you are valued. Join us.
