Office of the Chief Financial Officer
CFO manages the IRS budget and oversees the IRS accounting operations. We are looking for candidates with strong analytical and communications skills.

Corporate Performance Budgeting (CPB)
CPB formulates and executes the $11+ billion IRS budget. We ensure these resources are spent effectively. We work closely with key staff and leadership throughout the IRS while carrying out these activities.

Corporate Planning and Internal Control (CPIC)
CPIC leads the development of the IRS Strategic Plan and its implementation, collects, analyzes, reviews, reports, and communicates the measures of IRS performance and integrates performance measures. CPIC ensures the IRS meets its internal control responsibilities as defined by the Federal Managers Financial Integrity Act (FMFIA) including A-123 assessments, remediation plans, material weakness plans, and audit issues.

Internal Financial Management (IFM)
IFM accounts for appropriated funds, issues financial reports, establishes and manages the IRS financial management policy. IFM manages the Integrated Financial System (IFS) that connects the agency’s accounting, performance, budgeting, and procurement functions.

Revenue Financial Management (RFM)
RFM ensures proper financial management and reporting of the tax revenue received by the IRS and reported to the Treasury Department and other federal agencies. RFM accounts for all tax revenue, receipt, refund activities, revenue assurance and compliance, ensures compliance with financial requirements, provides financial modernization development support, and ensures system integrity, custodial information and prepares and issues revenue financial statements/notifications.
